Work Experience

Software Engineer Intern | Chubb June 2025 – July 2025

- Developed and trained an agentic AI system using CrewAI and Python to assist the operations of both Underwriters and Software Developers within the company.
- Used the AI system to automate legacy code modernization for developers and to summarize underwriting documents for underwrirters.
- Designed and implemented the system with an intuitive API to be used in an internal web-based service.
- Used Microsoft Azure Blob Storage and MongoDB for persisting data and embeddings, respectively.

Data Structures Course Assistant | Stevens Institute of Technology January 2025 – May 2025
Aided students in the learning process throughout the semester. Held office hours to answer student questions. Graded assignments, quizzes, and tests.

Math Tutor | Self-Employed September 2019 – May 2022
Tutored middle and high school students in Algebra and Geometry

Lifeguard / Swim Instructor | Briar Hill School & Camp and Quail Hill Scout Reservation June 2021 – August 2024
Observed and organized the activities of swimmers, including providing swimming lessons. Enforced applicable pool policies and regulations. Rescued swimmers in distress and provided emergency care.

Projects

ArtFinder Website February 2025 – Present
Web Application Group Project for the expressed purpose of helping to connect commissioners with trustworthy and affordable digital artists. Acts as both a digital marketplace and an ever-expanding collection of artists for independent user access. Made with Node.js and MongoDB.

White Wolf Lore Discord Chatbot June 2024 – October 2024
An AI chatbot integrated with discord that receives questions and distributes answers based on White Wolf media franchises. Built using a combination of discord.py and Llama 3 model.

Trivia Application April 2024 – April 2024
Systems Programming Final Project. Created a Trivia Application using sockets in C where the game master (server) would give questions to players (client)
